**DETERMINATION OF CUSTOMS VALUE OF PVC HOSE PIPE UNDER SECTION 25A OF THE CUSTOMS ACT, 1969**

**(VALUATION RULING NO 1624/2022)**

C. No.Misc/01/2017-II/326.

Dated: 31-03-2022

In exercise of the powers conferred under Section 25A of the Customs Act, 1969, the customs value of PVC Hose Pipe is determined as follows:

2. **Background of the valuation issue:** Earlier, the Customs value of PVC Hose Pipe was determined vide Valuation Ruling No. 1010/2017 dated 12-01-2017. Representation was received that the price of PVC Hose Pipe has increased in the international market. The said valuation ruling was more than five years old. In view of the foregoing position, an exercise for fresh determination of Customs value of subject goods under Section 25A of the Customs Act, 1969 was initiated.

3. **Stakeholders' participation in determination of Customs values:** Meeting with all stakeholders, trade bodies including representatives of clearance Collectorates was held in this Directorate General on 03-03-2022. The importers/stakeholders were requested to submit their proposals/suggestions as well as following documents before or during the course of stakeholders' meeting so that Customs value could be determined:

- i. Invoices of import during last three months showing factual values.
- ii. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- iii. Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- iv. Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers.

4. The meeting was attended by the stakeholders. Their views were heard in detail to arrive at the customs value of subject goods. The importers contended that the values in the existing Valuation Ruling are already higher in the existing Valuation Ruling; therefore, Customs value of subject goods may further be rationalized accordingly. None of the importers submitted any documents in support of their contention. The view points of stakeholders were heard in detail and considered to arrive at customs values of the subject goods.

5. **Methods Adopted to Determine Customs Values:** Valuation methods provided in Section 25 of the Customs Act, 1969, were duly applied in their regular sequential order to arrive at customs value of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable because no substantial documents were provided by the stakeholders to prove that their declared values were true transactional values. Moreover, different values were declared by different importers for same product according to different origins. Identical/similar goods value methods provided in Sections 25 (5) & (6) *ibid* were examined for applicability to determine customs values of subject goods. The data provided some references; however, it was found that the same could not be solely relied upon due to absence of absolute demonstrable evidence of qualities and quantities of commercial level etc. In line with statutory sequential order of section 25, this office conducted numbers of market inquiries from various markets. Finally, reliance had to be made on sub-section (7) of the section 25 of the Customs Act, 1969 to determine Customs value of PVC Hose Pipes to arrive at the assessable Customs values.

6. **Customs values for PVC Hose Pipes -*hereinafter specified*** shall be assessed to duty/taxes on the Customs values mentioned against them in the Table below:

10. The Collectors of Customs may kindly ensure that the values given in this Valuation Ruling for the given description of goods are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of Directorate General immediately.
