DETERMINATION OF CUSTOMS VALUE OF (LOW END BRANDS) LADIES UNDER GARMENTS OF POLY-COTTON BLENDED UNDER SECTION 25A OF THE CUSTOMS ACT, 1969.

(VALUATION RULING NO. 1683 /2022)

No. D(V)/212/2017-IV /724

Dated: 26 -07-2022

In exercise of the powers conferred under Section 25A of the Customs Act, 1969, Customs values of (low end brands) Ladies Undergarments of Poly-Cotton Blended of various categories are determined as follows:

2. Background of the valuation issue: The Customs values of (low end brands) Ladies under garments of Poly-Cotton Blended were earlier determined under Section 25A of the Act vide Valuation Ruling No. 1489/2020 dated 19-11-2020. The said valuation ruling was almost two years old and values of subject goods both in international and local markets have shown varying trends. Therefore, an exercise was undertaken by this Directorate General to determine the values afresh.

3. Stakeholders' participation in determination of values: Meeting with stakeholders was convened on 15-06-2022. All the participants were requested to submit the following documents:-

- Copies of invoices of imports (including GDs, ER, PL, BL, & all related imported documents each GD-wise) during last one year showing factual value.
- Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- Copies of Contracts made / LCs opened during the last one year showing the value of item in question, each GD-wise.
- Copies of Sales Tax Invoices issued during last one year showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers, each GD-wise.
- Latest price catalogue issued from manufacturer.
- Manufacturer's discount schedule if any.
- Copies of export GDs of manufacturer.

The importers did not submit any documents in support of their contention.

4. Method adopted to determine Customs values: Valuation methods provided in Section 25 of the Customs Act, 1969 were duly applied in their regular sequential order to arrive at customs value of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969 was found inapplicable because no documents were provided by the stakeholders to prove that declared values were true transactional values. Moreover, different values were declared by different importers for same product. Identical/similar goods value methods provided in Sections 25 (5) & (6) ibid were examined for applicability to determine customs values of subject goods. The data provided some references; however, it was found that the same could not be solely relied upon due to absence of absolute demonstrable evidence of qualities and quantities of commercial level etc. Information available was therefore found incomplete. In line with statutory sequential order of section 25, this office conducted market inquiries under sub-section (7) of Section 25 of the Act. As the prices of Ladies under garments of blended Poly-Cotton in the market varied significantly due to different quality of the goods and the location of the selling points, therefore the diverse surveys across the markets were conducted to arrive at customs values. PRAL imports database, market inquiry and international prices through web were also examined thoroughly in line with proviso to Section 25A(1) inserted vide Finance Act, 2021. Consequently, Deductive Value method as provided under Section 25(7) of the Customs Act, 1969 was applied to arrive at assessable Customs values of Ladies under Garments of Poly-Cotton Blended.

5. Customs values for Ladies Undergarments of different packing and various origins: Ladies Undergarments of different packing and various origins hereinafter specified shall be seed to duty/taxes at the following minimum Customs values: -
