(VALUATION RULING NO. 1770 /2023)

No. Reg. Mis/01/120079-VIII (B) IX/439

Dated: 18-04-2023

In exercise of the powers conferred under Section 25A of the Customs Act, 1969, the Customs values of I.V. Cannula/I.V. Catheter are determined as follows:

2. **Background of the valuation issue:** Earlier, the value of I.V. Cannula/I.V. Catheter were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.1707/2022 dated 13-12-2022. However, the same was challenged by various importers under Section 25-D of the Customs Act, 1969, against which Order-in-Revision No. 20/2023 dated 30-03-2023 was issued and the case was remanded back to the Directorate of Customs Valuation for denovo consideration. Therefore, an exercise has been undertaken by the Directorate to determine the same.

3. **Stakeholders' participation in determination of Customs values:** Meeting was convened on 17-04-2023 which was attended by all the relevant stakeholders. The issues pertaining to the valuation of subject goods were deliberated upon in detail in the afore-referred meetings.

4. **Analysis / Exercise to done to determine Customs values:** The stakeholders requested that the values of China and Turkey origin should be revised keeping in view the international market prices and prices of the raw materials. The importers of I.V. Cannula/I.V. Catheter of Chinese origin also provided their export Goods Declaration and Invoices from China. For this purpose, Ninety (90) days' data has also been retrieved and the same has been scrutinized. Subsequently, market inquiry has been conducted and examined in the light of this Directorate's Office Order No.17/2014 dated 19-03-2014 and in terms of Section 25(7) of the Customs read with Section 25(9) of the Customs Act, 1969.

5. **Method (s) adopted to determine Customs values:** Valuation methods specified in Section 25 of the Customs Act, 1969, were duly applied in sequential order to arrive at the Customs values of subject goods. The transaction value method as provided in sub-Section (1) of Section 25 of the Customs Act, 1969, was found inapplicable due to wide variation of values in import data. Moreover, the requisite information under law was not available to arrive at correct/transaction value. Therefore, identical goods value method provided in Sections 25(5) was examined for applicability to determine customs value of subject goods but the same could not be solely relied upon due to absence of absolute demonstrable evidence of quantities and qualities. Then, similar goods value method provided in Section 25(6) ibid was examined for applicability to determine Customs values of subject goods, however the same could not be solely relied upon due to afore-stated reasons. In line with statutory sequential order of Section 25 of the Customs Act, 1969, this Directorate conducted market survey under sub-Section (7) of Section 25 of the Customs Act, 1969. Various Retail Markets were checked to observe the actual prices of I.V. Cannula/I.V. Catheter. On the basis of available data / information collected and exercise conducted, the values of I.V.
