Subject: DETERMINATION OF CUSTOMS VALUE OF POWER TOOLS UNDER SECTION 25A OF THE CUSTOMS ACT, 1969.

1. Dates of meetings with stakeholders	The meetings with relevant stakeholders were conducted on 22.04.2024, 07.08.2024 and 05.09.2024
--	---

2. **Background of the Issue:** In pursuance of analysis of import data, current market trends, the difference in market prices and customs values, an exercise for the determination of customs values of subject goods was initiated under Section 25 and 25A of the Customs Act, 1969.
3. **Analysis to determine Customs Values:** The stakeholders contented that there is huge under invoicing of power tools in Pakistan by certain importers which can be verified from PRAL Data. The market inquiry and international publication prices confirmed the values are on higher side.
4. **Method (s) adopted to determine Customs values:** To determine the transaction values of goods, valuation methods specified in Section 25 of the Customs Act, 1969, were duly considered in sequential order to arrive at the Customs values of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable due to absence of information as required under sub-section (2) of Section 25 of Customs Act, 1969. Therefore, identical goods value method provided in Section 25(5) was examined for applicability to determine Customs values of subject goods. However, it was found that the same could not be solely relied upon due to absence of demonstrable evidences of quantities and qualities. Information available was, hence, found incomplete. Subsequently, similar goods value method provided in Section 25(6) was also examined for applicability to determine Customs values of subject goods. The import data of power tools for the last 90 days was examined. However, Declared Values (DV) of both identical and similar goods showed consistent variations. Hence, this method was also found inapplicable. The deductive valuation methods as envisaged under Sub-Section (7) of Section 25 of the Customs Act, 1969 was relied upon to determine actual transaction value of goods. A market inquiry has been conducted in the light of this Directorate's office order No. 17/2014 dated 19.03.2014 and the values in international market were also re-confirmed through the QY research report.
